

WHAT IS TYDO

TYDO is a modern multifunctional platform designed for efficient interaction with cryptocurrency exchanges.

TYDO ECOSYSTEM

1. **Trading Terminal** with automation capabilities and built-in technical indicators.
2. **Marketplace** for exchanging trading strategies and ideas, as well as automation solutions, between TYDO users with TYD token
3. **Social Trading Platform** will enable users to create a smart investing community by sharing trading and investing experience, and networking with each other. Experienced traders will be able to share their trading signals based on trading ideas or strategies, their portfolio structure and trading history.

TYDO BENEFITS

1. Unique combination of trading and interaction tools within one TYDO ecosystem.
2. Trading on most major cryptocurrency exchanges.
3. Highly customizable interface of TYDO Trading Terminal.
4. Develop your own trading ideas, strategies and indicators.
5. Built-in tools for full or partial automation of own trading ideas and strategies.
6. PineScript programming language compatibility (TradingView).
7. Built-in tools for full or partial automation of any trading strategy from TradingView.
